

Part Cleaner and Super-Clean Series.

NEW

New Breakthrough Degreaser

Our innovative new degreaser removes all kinds of grease from industrial mechanical parts. And highly safe industrial cleaners free of organic solvent poisoning preventive control.

Features

- Aerosol 450 & 840 cc. and Economic package 16 & 200 L for Manufacturing are also available.
- Cleaning of hand-to-reach places is easy because the canister can be turned upside down.
- As many grade of part cleaner, Customer can choose proper grade for your suitable application.
- Low odor, Low aromatic solvent and stable oxidant.

Main Applications

- Degreasing of all types of metallic parts.
- Efficiency removal of Anti-rusty oil, grease and others oil, Mold-release agent and other agents from mechanical parts.
- Great performance specially for washing oil.
- Degreasing of a coating surface prior to application of coating material.
- Degreasing of a bonding surface when an adhesive agent is to be used.

Precautions

- This product is not suitable for use on flexible plastics such as acryl, styrene, ABS
- When using on a part made of an unknown material, first conduct a test on a non-crucial section.
- Keep away from naked light because this product is combustible.

Packaging

- 450-aerosol (cleaning liquid: 294 mL)
- 840-aerosol (cleaning liquid: 588 mL)
- 16-L can (cleaning liquid: 16 L)
- 200-L can (cleaning liquid: 200 L)

Characteristics

		Specific Gravity	Flash point (Tag)	Drying characteristics	Flammability (GHS)
Solvent base	Part Cleaner FT (Liquid)	0.669	≤ -30 °C	Quick drying	Flammable liquids : Category 2 (Highly Flammable liquid and vapour)
	Part Cleaner FT (Aerosol)	0.669	≤ -30 °C	Quick drying	Aerosols : Category 1 (Extremely flammable aerosol)
	Super Clean MT-30	0.78	33 °C	Slow drying	Flammable liquids : Category 3 (Flammable liquid and vapour)
	Super Clean MT-80	0.80	79 °C	Slow drying	Flammable liquids : Category 4 (Combustible liquid)
	Super Clean MT-100	0.98	108 °C	Slow drying	Non-flammable liquids
Water base	Eco Cleaner WC-02YS	1.05	N/A	Slow drying	Non-flammable liquids

- This product is not a household commodity nor an office supply item. It is an industrial product intended for use by engineers who have relevant knowledge of the product.
- Use properly after first reading warning and precautions on the product label so as to prevent accidents.

Integrated supplier of Non-Destructive Testing and Marking
